## Professional Summary

B.Tech student specializing in Artificial Intelligence and Data Science with expertise in problem-solving and AI-driven solutions. Experienced in developing intelligent automation and data-driven applications using Python, FastAPI. Passionate about Software Development and Testing fields.

## Education

### Rajalakshmi Engineering College

Bachelor of Technology in Artificial Intelligence & Data Science — CGPA: 7.53/10.0

Chennai, India

Aug 2023 – May 2027

### Velammal Vidhyashram

Higher Secondary Certificate (HSC) — 73.3%

Tamil Nadu, India

2021 – 2023

## Technical Skills

**Languages:** Python, Java, JavaScript, SQL

**Web & Mobile:** React.js, React Native, Node.js, Express.js, Expo, REST APIs, FastAPI

**AI/ML:** TensorFlow, PyTorch, Scikit-learn, NLP, Computer Vision, Face Recognition

**Databases:** MongoDB, MySQL

**Tools & Frameworks:** Git, Power BI, Tableau, Pandas, NumPy

**Concepts:** Data Structures & Algorithms, System Design

## Professional Experience

### Career School HR Solutions Private Limited— web development

HTML, CSS, JavaScript, MongoDB

- Designed the web application for the e-commerce application using HTML, CSS and JavaScript
- Connected the application to the MongoDB database

## Technical Projects

### Career Guidance – AI-Powered Education Advisor

- Developed an Career Guidance educational advisor using Huge ecosystem for **AI, ML, NLP**.
- Integrated ML models like **IndicBERT** and **XLM-R (XLM-RoBERTa)** for Indian languages and Multilingual understanding.
- Used Scikit-learn & XGBoost for Basic classification & clustering and High accuracy.

### AI powered Demand Forecasting

- Developed Strong ecosystem of **time series & ML**.
- Used Scikit-learn, XGBoost, Random Forest models for the future demand.
- Designed decision making dashboards visualizing Sales trend, Predicted demand, Seasonal peaks.

### Music Genre Classification using Deep Learning

- Developed Librosa and PyDub models for Audio feature extraction and Audio file handling.
- Used CRNN (CNN + RNN) were CNN used for extracts features and RNN used for understands sequence.
- Used visualization tools such as Matplotlib and Seaborn for Spectrogram visualization and Confusion matrix.

## Certifications

- Python Fundamentals, Codsoft,2024
- Web Development, Career School HR Solutions Private Limited,2024
- Python for AI and Machine Learning, LinkedIn Learning,2024
- Data Analytics, Analytics Avenue Research Development,2025
- Data Science Bootcamp, Udemy, 2026

## Achievements & Leadership

- Treasurer – Institution’s Innovation Council (2024–25):** Managed event’s in college.
- Top 5 – Innovate Hackathon 2024:** VIT-College Hackathon.
- Top 3 – Make-a-thon 6.0:** 24-hour Hackathon at SVCE.
- Competitive Programming:** Solved 50+ DSA problems on LeetCode, HackerRank, and GeeksforGeeks.
